John, et al:

Attached is the Regional copy of the COC for samples shipped today for overnight delivery to OASQA Lab under DAS R34317/CT6665. Sample information and shipping airbill info are provided on the attached COC/TR.

This will be the last shipment for this week. The remainder of the sampling has been re-scheduled for next week. An MS/MSD was not collected because we anticipated more sampling tomorrow. If MS/MSDs are needed, the extra sample jars for one of the samples could be used and reduced volumes for extraction.
